

Covid 19 Update

At The Conversation Stamford, we want to continue to deliver our workshops in schools and colleges whilst of course ensuring that we do our bit to keep everyone safe. With this in mind we have instigated the following procedures:

- 1 - First and foremost we will adhere to The School's risk assessment and policies regarding Covid 19 and ask that schools send us a copy of these prior to our workshop.
- 2 - On entering the school all staff will wash hands or apply hand gel and wear masks if required in communal areas other than the teaching space.
- 3 - We have adapted our workshops to minimize handling of resources and equipment.
- 4 - Where possible, we will leave 72 hours before reusing equipment and resources.
- 5 - Any equipment or resources that are used will be wiped down between workshops.
- 6 - Staff will teach from the front for the majority of the time and will maintain a distance of at least 1 metre from students and school staff.
- 7 - We will require the use of a school laptop which we will wipe down before and after use.

If you have any questions or concerns, please get in touch
