

the conversation...

TOGETHER WE SHINE BRIGHTER - A creative workshop exploring The Protected Characteristics *For Year Five and Six classes*

- The workshops will allow students to explore preconceptions, tackle discrimination and promote diversity & representation, in addition to celebrating their own identities.
- Students will work with a poet and an artist to create original work exploring the importance of the protected characteristics.

“Protected characteristics are hugely important for children to understand and yet, often something that staff can shy away from teaching. Therefore, for The Conversation Stamford to be able to deliver a carefully crafted, age-appropriate and well-pitched project around protected characteristics, which leaves pupils feeling supported and respected in their questions and understanding is perfect.”

*St Augustine’s Stamford,
Primary Headteacher*
