

Introducing...

The Cyberwise Schools' Partnership Programme

Join a number of local schools supporting their staff, pupils and their families in the area of digital education

We have a solution

*Our partnership plan puts you at the heart of driving positive change both in the classroom and at home. We work with you to **empower staff, parents and pupils** to prioritise the wellbeing of the children as they navigate the digital world...*

Find out more on the next page

Our children are experiencing an epidemic of screen induced mental health challenges

over
80%

*of children aged 8 to 12 have internet connected devices in their bedrooms
– CyberSafeKids 2025*

93%

of teachers reported more children showing anxiety symptoms, with many linking this directly to smartphone use and online pressures – The Conversation 2026

The Cyberwise Schools Partnership Programme has been created by a team with a **wealth of experience** and research led initiatives – who contribute to both the local and national conversation regarding young people and digital wellbeing.

Gemma Holbird and Sarah Jane Sauntson (Cyberwise Directors) on BBC Breakfast news

"Partnering with The Conversation and becoming a Cyberwise school has enabled us to deliver a meaningful and engaging programme that has had a lasting impact across our whole school community. The project has been a great success from start to finish."

– Headteacher, St Nicholas CEVA Primary School
